

BENJAMIN EFOSA OKUNDAYE

FRONT-END DEVELOPER

CAREER OBJECTIVE

A computer scientist with an ability to collaborate effectively. Enjoy working closely with team members and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I have spent countless hours learning new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

PROJECT EXPERIENCE

- Create engaging and responsive frontends
- Collaborate with UI/UX designer to bring ideas to life
- Experience converting Figma designs to code
- Write clean, maintainable code and contribute to code review
- Troubleshoot and debug issues across the stack
- Worked on RESTful API's and web services
- Proficiency in database management
- Experience with version control systems (e.g., Git)
- Build and manage server-side logic and databases using technology such as Node/Express.js
- Implement security measures and protocols to protect against vulnerabilities and threats
