BENJAMIN EFOSA OKUNDAYE

B O

FRONT-END DEVELOPER

CAREER OBJECTIVE

A computer science graduate with an ability to collaborate effectively. Enjoy working closely with team members and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I have spent countless hours learning new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

PROJECTS

E-Commerce Store

github.com/benG1t/furniture-store

- An e-commerce furniture store built using React. A user can add and delete items in the cart. Users can also filter products based on price, color, brand etc. I also used auth0 for the authentication of users allowing them have access and restrictions to some features.

Movies DB

github.com/benG1t/ movie-db

- An external API named OMDB API which is a RESTful web service to obtain movie information was used to get data. A user can search a movie by inputting the name of the movie. React router was used to navigate to another page displaying information of a specific movie.

Cocktails

github.com/benG1t/ cocktails

- Using an external API to fetch cocktails and display them in cards. I also used react router for the about page which contains more fetched information about the cocktail.

WORK EXPERIENCE

2012(June-November)	GTBank Industrial Training (Marketer).
2014(August)-2015(August)	Yaba Local Government Council (IT Personnel)
2019(January)-2019(March) .	Federal College of Education Secondary school (Teaching Practice).
